EDUCATION

Kennesaw State University

B.S in Cybersecurity & Minor in Aerospace Engineering

GPA: 3.4/4.0 & 3x Deans List

Relevant Course Work *Client Systems, Inc. Resp, Systems Admin, Software Assurance,*

Certifications – Cisco Principals of Cybersecurity issued 2024, CompTIA Security+ -expected in July

Atlanta, GA

Expected May 2027

WORK EXPERIENCE

Children's Healthcare of Atlanta

Security Engineer Intern – Identity & Access Management

Atlanta Ga

May 2026- Present

- **Engineered** and executed **PowerShell** scripts to **audit, filter, automation** and restructure a directory of 2,600 on-premises distribution groups, optimizing data pipelines for hybrid **cloud synchronization**.
- Managed enterprise identity lifecycles and **role-based access controls (RBAC)** leveraging **Microsoft Entra ID** and **SailPoint** frameworks to enforce strict **Zero Trust architecture** across high availability operational environments.
- Utilized **Advanced Excel (Power Query, VLOOKUP, and pivot tables)** to perform deep dive data manipulation, parsing raw infrastructure telemetry to ensure technical compliance and system readiness

Orange Mali

Cybersecurity & Research Intern

Orange Mali

May 2025- Aug 2025

- Analyzed **infrastructure logs** and **threat vectors** to implement secure, standard-compliant network baselines.
- Documented incidents and resolutions in **ticketing systems** & improved teams' efficiency and knowledge by **20%**.
- Led technical training and cybersecurity awareness for **50+** local users, **improving baseline system hygiene** and **mitigating operational risks**.

Cobb County Parks

Helpdesk & Camp Counselor

Atlanta, Ga

May 2024 – July 2024

- **Provided identity verification and access support for 50+ users and access control practices.**
- **Verified user identities and cross-referenced access control lists before granting network clearance, ensuring full compliance with security policies**

PROJECTS& LEADERSHIP EXPERIENCE

African Student Association, Active Member& Student Leader, Kennesaw State University

2023-Present

- **Help organize campus events by serving 100+ students while promoting security awareness and leadership.**
- Integrated cybersecurity awareness into student discussions, mentored new members & increased participation by 20-25%
-

Cloud Security & Risk Assessment

2025 -Dec

- **Secured a small cloud environment (AWS / Azure) by implementing identity, logging, and monitoring controls, improving simulated compliance scores by 25%.**
 - Set up **IAM roles, least privileged policies, and (MFA)** to control access across cloud accounts.
 - Assessed **cloud** misconfigurations and access risks impacting confidentiality, integrity, and availability.
- Simulated real time logging pipelines using Python, injecting threat modeling to isolate 99% of network data anomalies.
